

CLI Assignment - Practical Problems

Instructions:

1. Use only Command Prompt (CMD).
2. Do not use File Explorer.
3. Submit screenshots of commands and outputs.
4. Use only commands taught in class: dir, cd, mkdir, rmdir, del, echo, copy, move, ren.

Question 1: Create a Project Structure

Create folders HTML, CSS, JavaScript and React inside a Practice folder. Verify using dir and navigate into each folder.

Question 2: Student Notes Management

Create Student > Unit1, Unit2, Unit3. Create notes.txt inside Unit1 and add 'Welcome to MERN Stack'.

Question 3: Copy Command Practice

Create Training > Source and Backup. Create data.txt in Source and copy it to Backup.

Question 4: Move Command Practice

Create Company > HR and Employees. Create employee.txt in HR and move it to Employees.

Question 5: Rename Command Practice

Create report.txt and rename it to final_report.txt.

Question 6: Complete File Management Challenge

Create College > Semester1, Semester2, Semester3. Create mern.txt, copy, move and rename it to mern_notes.txt.

Question 7: Delete Operations

Create Demo > FolderA, FolderB, FolderC. Create a file, delete it, then remove folders.

Question 8: Real World University Structure

Create Sharda University > Unit 1 > Sprint 1 > Day 1, Day 2, Day 3. Create notes.txt, copy, move and rename it.

Question 9: Error Identification

Correct these commands: `mov folder1\notes.txt folder2`, `mdkri folder4`, `remdir folder1`, `move folder1/notes.txt folder2`

Question 10: Final Practical Challenge

Create MERN_Course structure. Create, copy, move, rename and delete files/folders as instructed.

Bonus Challenge

Create CodingRank with Batch1 and Batch2 student folders. Create progress.txt in every student folder.
